

This bibliography of sources about the visual learning style contains information in APA format for all sources used on this site in the articles and for the foundational research that spawned the creation of this website. Some of the results are supplemental in that they are not directly quoted or used for a specific article on visual learning styles, but most have been directly referenced within one of the articles available in our [directory of articles on learning styles](#) here. If you have one that you think would be a good supplemental addition, please [email us](#) with the full citation and/or a link to the original source.
